**Kent, WA Soccer Field, North Green River Park**  
**More than one grass circle available from 9 am to 6 pm!**

Mufflers are required for i.c. engines; Electric, solar and steam power are exempt!

**Announcing the 11th Annual Worldwide  
Ringmaster Fly-A-Thon!! October 4<sup>th</sup> and 5<sup>th</sup>, 2018  
(Rain/weather issue dates; October 11-12, 2018)  
(These dates avoid conflict with the Salem Fall Follies, 10-6/7)**

The Fly-A-Thon is honoring the plane that many of us flew back in the 50s, 60s 70s and 80s. Simply stated, we want to see how many Ringmaster flights can be recorded over a single weekend, the first weekend in October. Last year we recorded 3928 flights with 694 pilots (a new record) in a number of different countries worldwide. The simple rules are stated below and I want to direct particular attention to the last paragraph. Recruiting new people to join control line model airplane hobby is an important aspect of this event!

We hope you will join us this year and have fun flying your Ringmasters along with fellow modelers around the world!

**Rules:**

- Any Ringmaster from 1/2A to Giant and all variants (bipes, twins, etc.) can be flown.
- The goal is maximum number of flights with all pilots and planes participating.
- A 'flight' is a minimum of 5 laps (in the air !!) to be qualifying.
- No builder of the model rule is in effect for this event!
- Results will be reported by Tuesday, October 9<sup>th</sup>, 2018 at [2016flyathon@ringmasterflyathon.com](mailto:2016flyathon@ringmasterflyathon.com)
